LEADER IS LAST TO DIE

Lieutenant Gran Tells of the Finding of the Bodies of Captain Scott and Members of His Party—Says Men Died With a Smile on Their Lips

Winnipeg, May 7.—Exhaustion and not starvation was the cause of the death of Captain Scott and the men who died with him on his way back from the south pole, according to Lieut. Gran, a member of the supporting party, which found the bodies of the party in the frozen Antarctic. Lieut. Gran stopped off in this city for a few hours on his way to London. "The end of the party was peaceful," declared Gran. "When we came up to the tent in which the bodies were all silent. The snow had drifted about the tent and something seemed to tell us that the end for them had come."

"All about us were desolate wastes of snow and ice and a chill came over our hearts."

"Lieut. Wright of Toronto, a Canadian, who commanded our little party, approached the tent first and lifted the flap. We followed, expecting the worst, and formed, in a little group about the mouth of the tent. Capt. Scott lay on his back as if asleep, but outside of his sleeping bag. The bodies of Dr. Wilson and Lieut. Bowers were in their sleeping bags and it was apparent that they had been carefully wrapped up by Capt. Scott, who evidently was the last to die."

"Lieut. Bowers lay on his side, exactly as if he were asleep. Dr. Wilson was sitting in a half reclining position, his back against the inside of the tent, facing us as we entered. On his features were the traces of a faint smile, and he looked exactly as if he were about to awaken from a sound sleep. I had often seen the same look on his face in the morning as he awakened, as he was of a most cheerful position. The look struck us to the heart and we all stood silent in the presence of his death."

Lieut. Gran, a stalwart young Nor-

wegian, is en route from Vancouver to New York. Thence he will go to London to attend the meeting of the Royal Geographical society on May 23.

"While they did not die of starvation, still all their food had given out and worst of all their fuel," he said. "Then it must be remembered that they were experiencing terrible storms and a man cannot see in any direction when these storms are blowing."

"When we had secured all the equipment and the records of Capt. Scott, we laid the bodies side by side and said a burial service for them. Then we removed the poles from the tent and covered the bodies over with the canvas. On top of this we built a cairn of snow and ice about fifteen feet high. We then took two skis, bound them together in the form of a cross, erected it on top of the cairn, a last memorial to the dead and left them where they fell."

Gran has in his possession Scott's diary and records.

SUFFRAGISTS LOSE FIGHT

Militants Bring Defeat to Bill For Which They Were Fighting—Irish Nationalists Oppose Measure—Incendiarism Chief Reason For Defeat

London, May 7.—The fate of the women's suffrage bill was sealed last night by more than 50 Irish nationalists, who voted against it. The bill whereby it was sought to enfranchise 6,000,000 women was rejected by a majority of 47. The vote stood 206 to 219. Whether there is any chance that the present parliament will pass a bill of more limited character may be doubted. Possibly the nationalists fear that if they allow a women's franchise bill to pass the second reading it will lead to a parliamentary struggle, which would not unlikely end in dissolution of parliament before the home rule bill becomes a law.

Furthermore, the debate yesterday proved that the militant policy of the suffragists has done the cause great harm as far as parliament is concerned. The conciliation bill of last session was rejected by only a small majority compared with the Dickinson bill, which was under discussion today and previous bills, giving some measure of enfranchisement to women have passed the second reading, although they never survived subsequent stages.

Recent police court disclosures of acts of incendiarism planned by the militants, far surpassing in magnitude anything heretofore attempted, and the burning of St. Catharine's church at Hatcham yesterday undoubtedly influenced many members to vote against the bill.

The figures of the division, showing the defeat of the bill, were greeted with a great cheer from all sides of the house. The debate, which on Monday proceeded with extraordinary apathy, was characterized by intensity and brilliant speeches. The house was crowded and pervaded with an atmosphere of excitement. The stranger's galleries were packed and many anxious faces peered from behind the grilly guarded gallery devoted to women.

Neither Andrew Bonar Law, leader of the opposition, nor A. J. Balfour voted in the division. Among the ministers who voted against the bill were Premier Asquith, Reginald McKenna, Lewis Harcourt, J. E. B. Seely, Winston Spencer Churchill and C. E. Hobhouse.

The supporters of the bill included Sir Edward Grey, David Lloyd George, Rufus Isaacs, Augustine Birrell, Sydney Buxton, C. F. G. Masterman, Sir J. A. Simon and F. D. Acland.

Sir Edward Grey, secretary for foreign affairs, worked for the bill. He said there was ample evidence that a very large section of the women of the country had shown by constitutional means that they favored the enfranchisement of their sex.

RESIDENCE IS BURNED.
Grantsville, May 6.—Fire gutted one of Grantsville's landmarks—the Wrathall family residence here this morning. The damage is estimated at about \$1500. The flames started from a brooder house, set afire by an incubator lamp, in the rear of the residence.

The laboratory experiments are almost always favorable to the vegetarian, who flourishes at a great rate and lifts more than his meat-fed colleague and walks further and enjoys better health, and in short, repeats the experiment of Daniel.

The number of women employed in Russian factories in the year 1911 was 638,000; the number of male workers was 1,412,920.

CONSERVING HUMAN LIFE

Washington, May 6.—President Wilson was urged today by a committee of the American Medical association to call a general conference to discuss plans for a federal department of public health and everything pertaining to the conservation of human life and efficiency. Professor Irving Fisher of Yale, Dr. John B. Murphy of Chicago, Dr. G. H. Simmons of Chicago, Dr. L. K. Frankle and Dr. Abram Jacob of New York, Dr. Harvey W. Wiley, Senator Owen and Representatives Foster of Illinois and Curley of Massachusetts, urged the idea.

Professor Fisher, spokesman for the party, declared that the president had listened attentively and had expressed his keen appreciation of the necessity for public health legislation but that until he was able to accumulate more information and make deeper study into the questions involved, he would be unable to commit himself.

Senator Owen had a private talk with Mr. Wilson on currency reform, arranging for an early conference to get at length the president's views. Professor Fisher of Yale, who is foremost among currency reform advocates, is likely to be consulted.

ITALY TO PAY INDEMNITY

The Hague, The Netherlands, May 6.—The Franco-Italian court of arbitration dealing with the seizure by Italian warships during the Turkish-Carthage and Manuba, decided today that Italy was in the wrong and condemned the Italian government to pay \$32,000 and \$800 in the respective cases.

The Carthage was seized on January 16, 1912, on suspicion that she had contraband goods on board. She was released two days later on the request of the French government.

The Manuba was seized on January 19, 1912, while she was carrying a Turkish medical mission. She was allowed to proceed on her voyage after landing her Turkish passengers.

UTAH MAN IN QUAKER JAIL

Philadelphia, Pa., May 7.—Accused of complicity in the robbery of the home of J. Jentoft, Jacob Hanson of Salt Lake was held without bail for a further hearing next Tuesday by Police Magistrate Harris yesterday.

Hanson was arrested last night by Quigley and Quinn, special policemen. In a hand bag were a loaded revolver and various small articles of jewelry. The jewelry later was identified as part of the loot from the Jentoft home. According to Hanson, a man whom he met while riding a freight train "pulled off the job."

This man, said Hanson, once had worked for Jentoft, who keeps a chicken farm, and was known to the dogs on the place.

"The real thief gave me the bag to look after," said Hanson. "I did not know what was in it." He was a last night, he said, but after the specialists and he had waited two hours with no sign of the alleged companion the policeman locked Hanson up.

The apparent sincerity of the man's story has made the authorities doubt his guilt and a diligent search is being made for the mysterious companion.

ENGAGEMENT BROKEN OFF

St. Paul, Minn., May 7.—The engagement of Miss Alice Loraine Daly of St. Paul to United States Senator James H. Brady of Idaho has been broken "by mutual consent," according to announcement here. Her sister Miss Mary Daly last night declined to disclose the cause of the break.

Miss Alice Daly is at present studying in the Emerson School of Oratory in Boston.

The breaking of the engagement brings to a close a romance which began four years ago in Pocahontas, where Miss Daly was teaching school. Pocahontas is the home of Senator Brady, who was at that time governor of Idaho.

The engagement was announced in St. Paul last December.

SHENK LEADS THE TICKET

Los Angeles, May 7.—Approximately 75,000 votes were cast in the municipal primary election yesterday, which, according to early returns last night, resulted in a victory for the "municipal conference" ticket.

Incomplete returns indicate that John Sherk, municipal conference candidate for mayor, may have been elected outright, as he is running very close to a majority of all votes cast. Should the primary not result in an election for mayor, the ballot for the regular election on June 3 will not contain the name of Job Harriman, Socialist candidate, if the early result is maintained. There was a heavy falling off in the Socialist vote, and Harriman, who led all candidates in

the primaries election of November, 1911, is running third in the count of today's ballots. Returns available at 9 o'clock last night showed H. H. Rose, independent candidate, running second to Sherk, with Harriman several thousand votes behind Rose. With no final choice in today's contest the majority candidates will be Sherk and Rose.

PEACE PLAN OF ENGLISH

New York, May 7.—Before taking up the discussion for the plan for the one hundred years of peace among the English-speaking nations, the international conference in session here yesterday to arrange the program tentatively decided to adopt a statement of purposes that would make for a perpetuation of this peace.

The celebration, it was stated, was of secondary importance to the consideration of future peace between the two nations as an object lesson to other countries now at war or preparing to engage to settle differences by force of arms.

In this connection it was announced last night that at the banquet in honor of the visiting Secretary of State Bryan would be present and is expected to make an important announcement.

A celebration plan considered was the erection of international peace monuments by Great Britain and the United States, possibly of identical design, the cost to be defrayed either from public funds or through private subscriptions. With the monument plan as a basis, other suggestions were that the corner stones be laid on a chosen day by the king of England, the president of the United States and by their representatives "beyond the seas," that other nations and all foreign governments be invited to send delegates to attend these ceremonies; that on the day the corner stones are laid the occasion be observed by special exercises in schools.

Journalists to Visit England.

It was urged that the endowment of traveling scholarships to enable journalists and writers to visit English speaking countries should be considered, and the awarding of prizes for essays by school children on subjects of peace and the abolition of war among civilized peoples.

The schools, the delegates agreed, should be urged to include courses of history covering the period of 100 years of peace and to hold peace day celebrations every year.

During the celebration period two years hence the delegates agreed to urge that one day be set aside for universal religious services of thanksgiving; that it would be desirable to strike off an international commemorative medal and to adopt a universal tablet to be placed in public buildings and affixed to the international peace monuments.

Charles A. Magrath, secretary of the Canadian delegation, said that the executive session the delegates decided to postpone definite action on the proposals to recommend the erection of permanent peace monuments on the frontiers and the proposed celebration at Ghent. Captain Magrath said that while suggestions made today were tentative, all of them would be considered very seriously and he felt assured that the program would be arranged with them as the basis.

A shorter workday has been granted by the Ontario government for the miner and bartender.
